

Rapid Rinse Station™

Save Water, Space and Time

One station to clean them all.

Small, fast and efficient. The Rapid Rinse Station reclaims valuable counter space with its minimal form factor, and is perfect for stacking multiple Blendtec jars. Best of all, it can reduce exposure to harmful sanitizers that irritate skin and cause lost time on the job.

RAPID RINSE STATION™

Save Water, Space and Time

Durable construction

The Rapid Rinse Station is made of chemical-resistant plastic. A stainless steel spray nozzle ensures trouble-free operation.

Smart Design

Compact and low-profile, the Rapid Rinse Station fits neatly next to your Blendtec blender or dispenser. It features a closed valve system that prevents water leakage when water pressure drops.

Standard Features

- EASY** – Simple to disassemble and clean
- CONTROL** – Easy one-push operation
- SAFE & STRONG** – Stainless steel nozzle for long-lasting, trouble-free operation
- VERSATILITY** – Effective for rinsing any container of 8" diameter or smaller

Additional Options

- RINSER ONLY** – Rapid Rinser also available for purchase separately
- ERGONOMIC** – Quick-disconnect water supply coupling

Expanded coverage

Upon activation, water immediately covers 70% of the rinsing area (compared to only 30% in other rinsers).

Easy and versatile

Use the Rapid Rinse Station to rinse any container with a diameter of 8" or less. Pitchers, blender jars, measuring devices—anything! A gentle push on the platform is all it takes to activate the spray.

Rapid Rinser

Available for purchase separately. By itself, the Rapid Rinser typically sits in a sink or basin, where rinsewater can drain effectively.

120° Coverage

Spray nozzle offers 120° coverage. Powerful jets clean containers in mere seconds.
