

INSTRUCTIONS

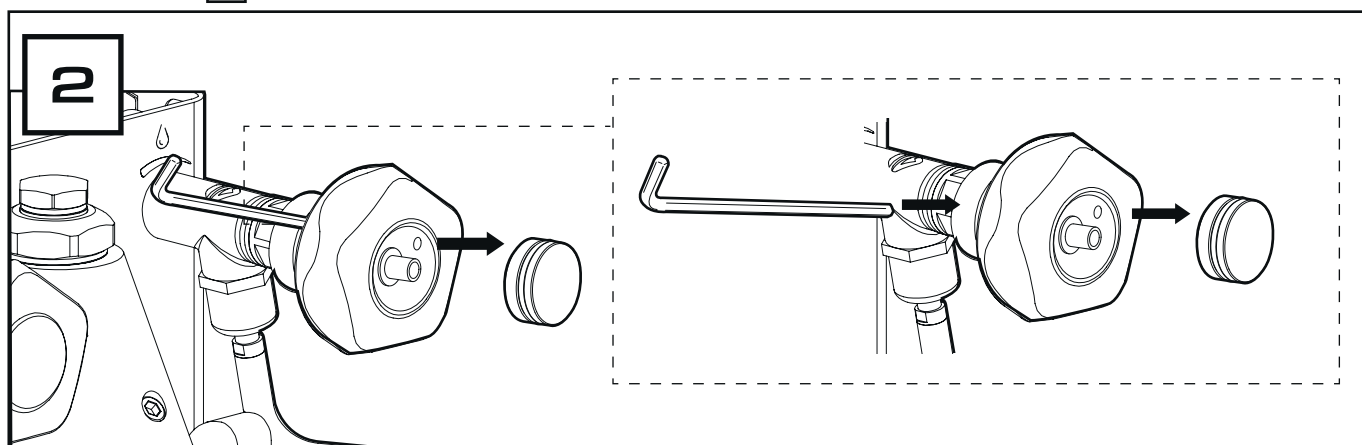

Upgrade kit containing wooden water and steam knobs, lever knob, and Pagaia.

PL62X3 all models

Disassembly instructions for the wooden water and steam knobs, lever knob, and Pagaia.

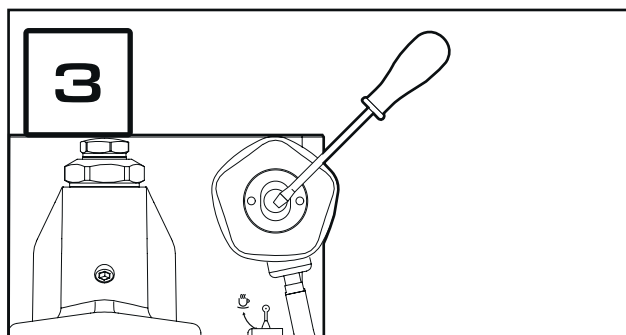

To remove the cap **A** from the knob, insert an Allen key into both small holes at the back of the wooden knob **D**.

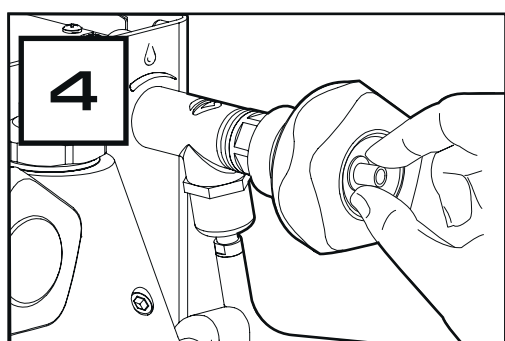

Push the cap **A** out.

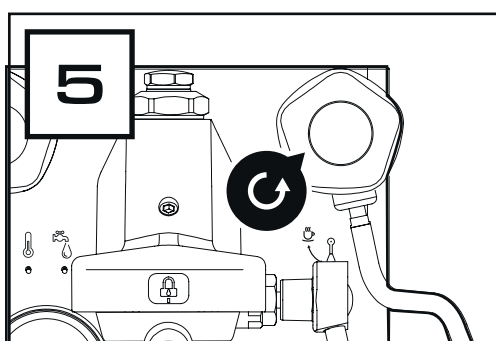

INSTRUCTIONS

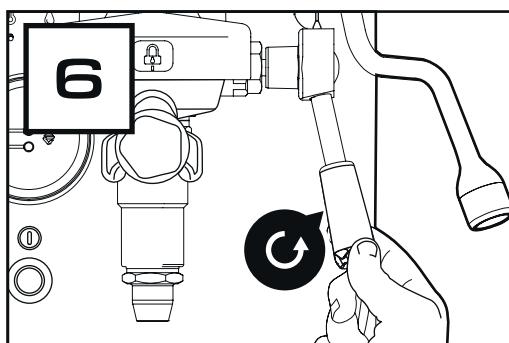

Remove the locking ring **B** by using a flat screwdriver.

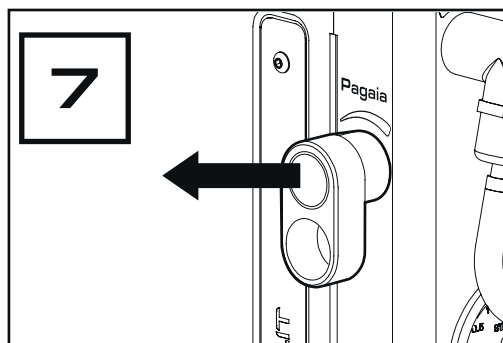

Pull the spacer **C** out by hand.

Turn the knob anticlockwise to remove it from the tap.
Repeat steps from **1** to **4** for the steam knob **D**.

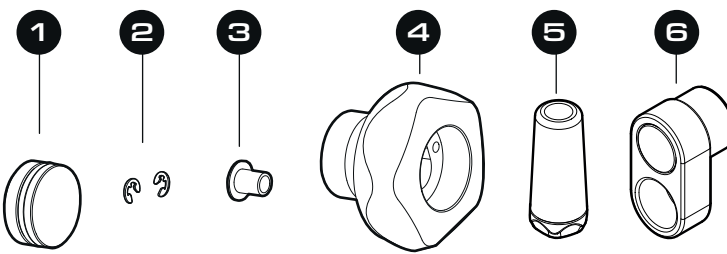

Unscrew the wood lever knob **E** anticlockwise onto the extraction lever.

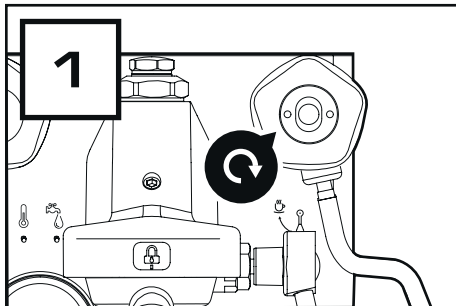

Remove the Pagaia **F** by gently pulling it straight outward from the shaft.

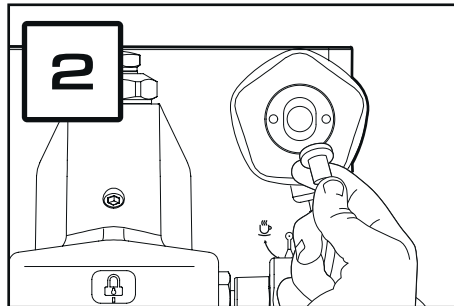

INSTRUCTIONS

Assembly instructions of the wood components.

	GENERAL WARNINGS - Store the packaging material (plastic bags, carton, foam polyurethane, etc.) out of the reach of children. - Caution: the product includes small parts. - To prevent the risk of suffocation, keep the product out of the reach of children. - The wood accessories must not be immersed in water, washed in dishwasher or with aggressive cleaning detergents.
---	---

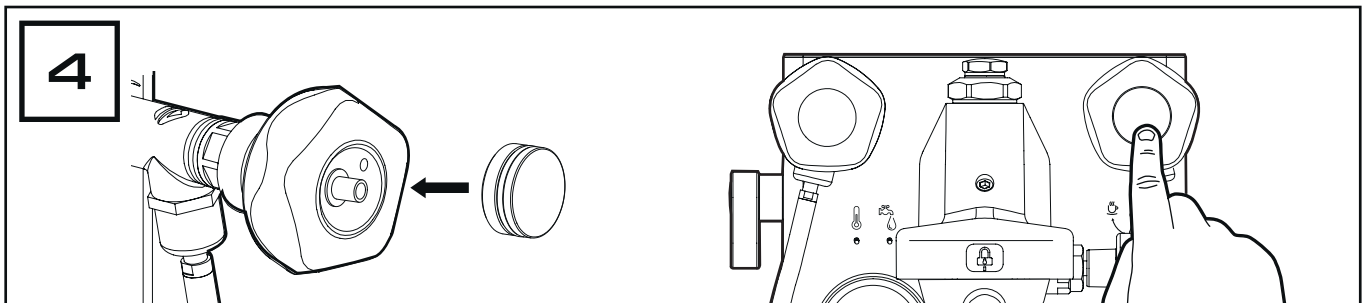

Turn the new knob **4** clockwise to install it onto the tap.

Insert the spacer **3** into the hole of the knob.

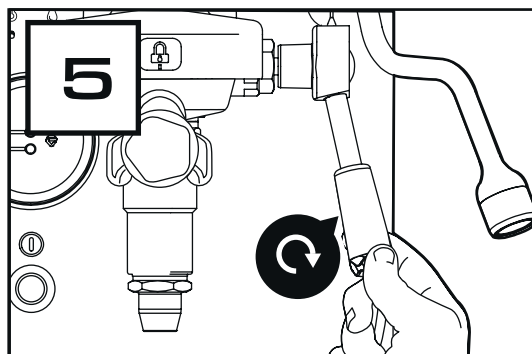

Insert the locking ring **2** on the stem of the tap.

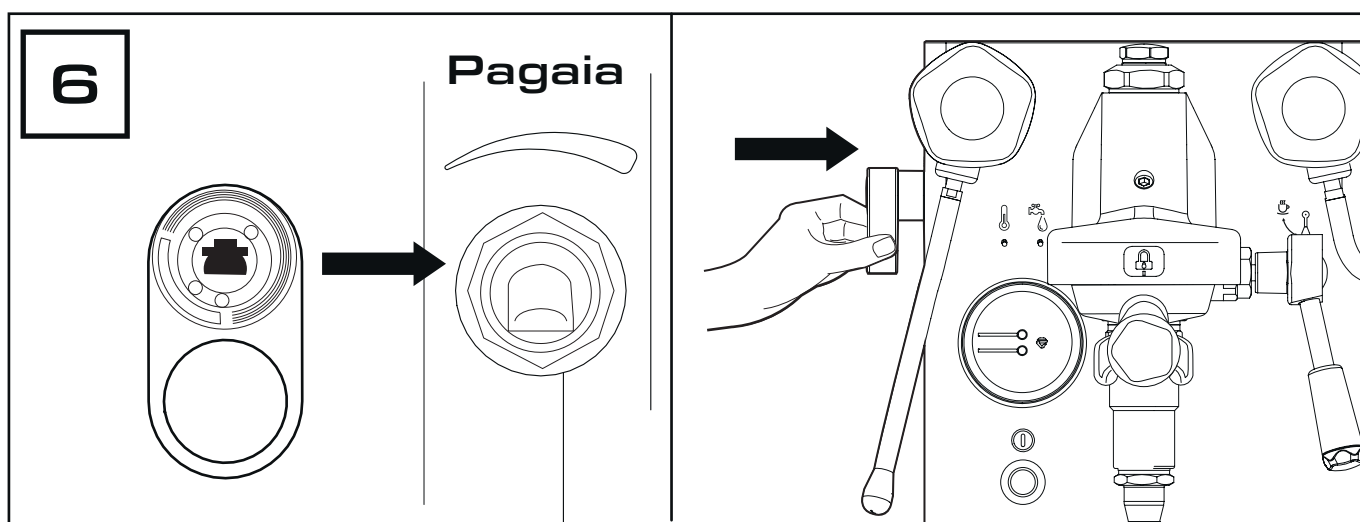

Push the cap **1** into the knob by hand. Repeat steps from **1** **4** to install the steam knob.

INSTRUCTIONS

Screw the wood lever knob **5** clockwise onto the extraction lever.

Install the new Pagaia **6** so that its semicircular hole aligns with the shaft, then gently push it inward until it clicks securely into place.
